SUMMARY

I am a 2026 BCA graduate with hands-on experience developing web applications through academic and personal projects. I have worked with Java, Python, JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, FastAPI, and SQL. My projects include a travel comparison platform, a campus navigation application, a room rental website, and an AI-powered chatbot. I am looking for an entry-level technical role where I can apply my current skills, improve my coding abilities, and gain experience working on real-world applications.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, C, C++
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend and APIs: Node.js, Express.js, FastAPI, REST APIs
Databases: MySQL, Supabase
AI/ML and Data: Google Gemini API, Natural Language Processing (NLP), Machine Learning, Pandas, Matplotlib
Developer Tools: Git, GitHub, VS Code, Vercel
Computer Science Fundamentals: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks, Software Engineering

EDUCATION

Bachelor of Computer Applications (BCA)
Graphic Era Hill University, Dehradun
Year: 2026 | CGPA: 7.64

Class XII
Army Public School, Clement Town, Dehradun
Year: 2023 | Percentage: 70.80%

Class X
Army Public School, Clement Town, Dehradun
Year: 2021 | Percentage: 80.40%

PROJECTS

1. Tripzy — Travel Comparison Platform
Tech Stack: Next.js, TypeScript, Tailwind CSS, FastAPI, REST APIs
- Built a responsive website for exploring and comparing travel options.
- Developed reusable frontend components using Next.js, TypeScript, and Tailwind CSS.
- Integrated frontend components with backend APIs to support travel search and selection workflows.
- Implemented dynamic routing to navigate between application pages.
- Worked on account-related features and communication between frontend components and backend APIs.

Live Demo: https://tripzy-teal.vercel.app/ **GitHub:** https://github.com/SakshiKanti10/Tripzy

2. CollegeMate — Campus Navigation Platform
Tech Stack**:** React.js, TypeScript, Express.js, REST APIs
- Built an application that helps users navigate between different campus locations.
- Implemented graph-based algorithms to find the shortest paths between locations.
- Developed interactive SVG maps with clickable landmarks and visual route representations.
- Created frontend components using React.js and TypeScript.
- Worked on backend API functionality related to faculty availability and status.

Contribution: Frontend development, graph-based routing, and REST API implementation.

3. Roomzy — PG and Room Rental Platform
Tech Stack: React.js, Node.js, Express.js, Supabase
- Developed a website for browsing PG accommodations and room rental options based on location, budget, and availability.
- Created features for property owners and people looking for accommodation.
- Used Supabase for database operations and authentication, where implemented.
- Implemented search and filtering features to help users find suitable rental options.

4. Chatbot Cloud — AI-Powered Chatbot
Tech Stack: HTML, CSS, JavaScript, Google Gemini API, REST APIs
- Created a chatbot application using the Google Gemini API to respond to user prompts.
- Designed the chat interface using HTML, CSS, and JavaScript.
- Implemented API requests to submit prompts and retrieve responses.
- Added loading indicators and error messages to handle API issues.
- Tested the application and API communication using browser developer tools.

5. Mind Ease — Mental Wellness and Mood Tracking Application
Tech Stack: Python, Streamlit, NLP, Machine Learning, Pandas, Matplotlib
- Built a Streamlit application that provides mental wellness suggestions based on user input.
- Used sentiment analysis to identify sentiment categories in user input.
- Connected sentiment results with a recommendation workflow to provide relevant suggestions.
- Used Pandas to organise mood-related data and Matplotlib to visualise mood trends.

CERTIFICATION

HackerRank Skill Certification — SQL (Basic)
Issued: 20 July 2026
Certificate ID: 5633B55D3E14
