PROFESSIONAL SUMMARY

BCA graduate with hands-on experience in AI-powered applications, full-stack web development, and software engineering projects. Proficient in Java, Python, C/C++, MySQL, React, and Node.js. Built projects involving NLP, chatbot development, campus navigation systems, and rental management platforms. Seeking software development, backend & frontend development, web development opportunities to apply technical skills and contribute to innovative technology solutions.

TECHNICAL SKILLS

Programming: Java, Python, C, C++

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js

Database: MySQL, Supabase

Concepts & Tools: OOP, Data Structures, REST APIs, Git, NLP, Machine Learning, Streamlit

Operating Systems: Windows

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Software Engineering • Operating Systems • Computer Networks

ACADEMIC PROJECTS

Chatbot Cloud

Designed an AI-powered chatbot using HTML, CSS, and JavaScript. Integrated Google Gemini API for real-time responses and designed a responsive user interface. Tech Stack: HTML, CSS, JavaScript, Gemini API, REST APIs.

Mind Ease – AI-Powered Mental Wellness Chatbot

Built a mental wellness chatbot using Python and Streamlit. Implemented NLP-based emotion detection, mood tracking, and visual analytics dashboards to support user wellness monitoring. Tech Stack: Python, Streamlit, NLP, Machine Learning, Matplotlib, Pandas.

Collegemate_web

Designed a campus navigation and faculty availability platform featuring graph-based shortest-path routing, interactive SVG maps, role-based authentication, and REST API integration. Tech Stack: React, TypeScript, Express, Axios.

Tripzy – Full-Stack Travel Comparison Platform

Designed a full-stack travel comparison and booking platform using Next.js, FastAPI, TypeScript, and Tailwind CSS. Built features for trip search, price comparison, booking management, secure user authentication, and payment integration. Designed a responsive and user-friendly interface while ensuring scalability, performance, and secure handling of user data.

Roomzy – PG & Room Rental Platform

Created a full-stack room rental application with authentication, booking management, CRUD operations, and location-based search and filtering. Tech Stack: React.js, Vite, Node.js, Express.js, Supabase.

EDUCATION

Bachelor of Computer Applications (BCA) – Graphic Era Hill University, Dehradun
CGPA: 7.64 | 2026

Intermediate – Army Public School, Clement Town, Dehradun
70.80% | 2023

High School – Army Public School, Clement Town, Dehradun
80.40% | 2021

STRENGTHS

Problem Solving • Teamwork & Collaboration • Effective Communication • Time Management • Quick Learner
